## Enrolment Pressure Concentration

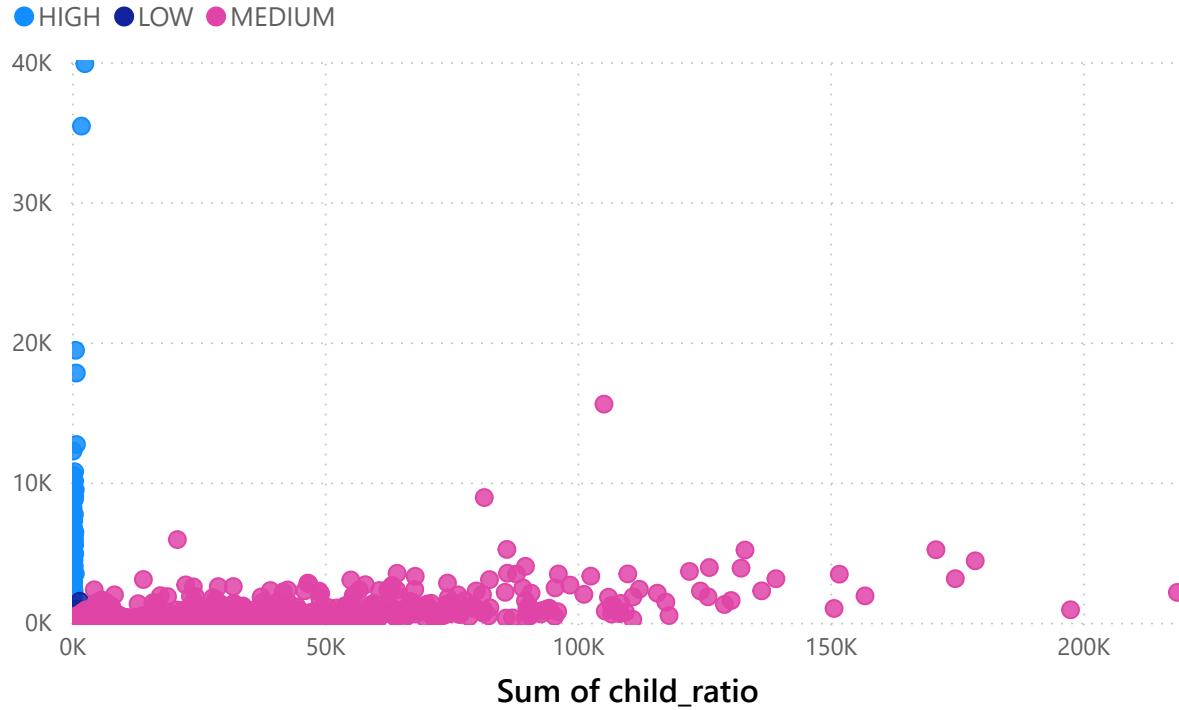

## Enrolment Per State

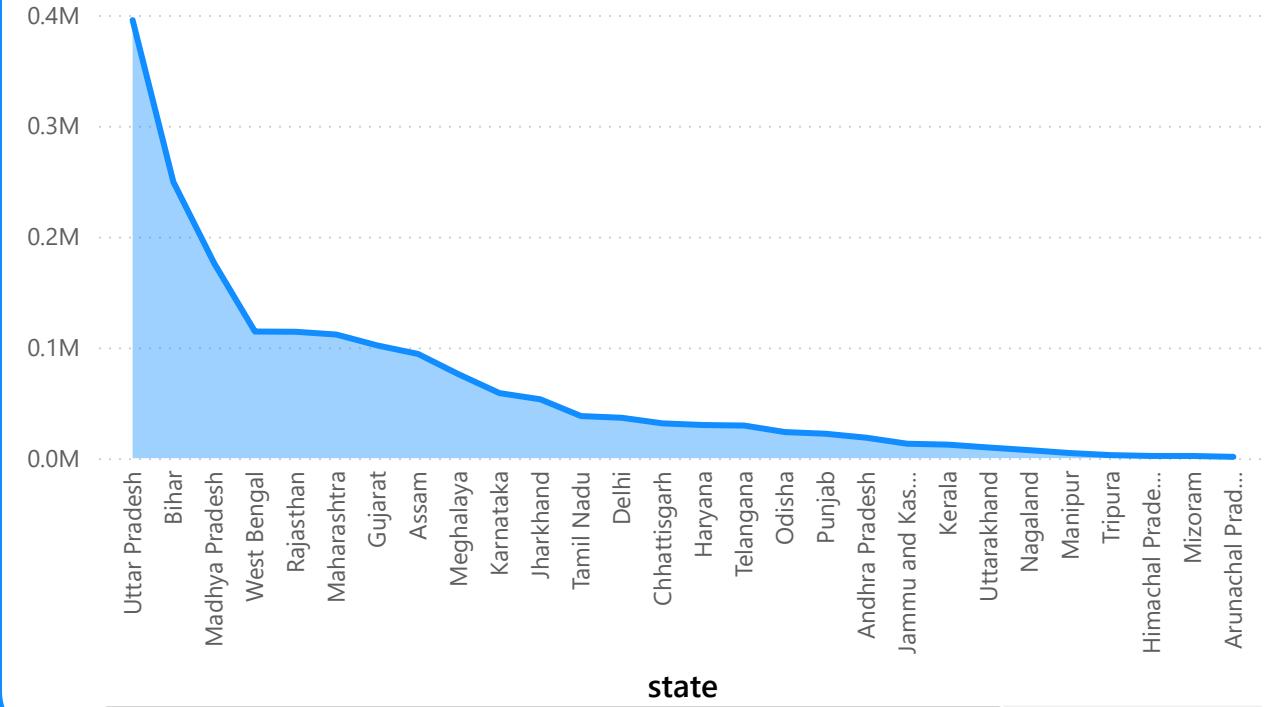

## Geo-Spatial Distribution of Enrolment Pressure

### Age Distribution BY Enrolment Pressure

### Temporal Pulse of Enrolment BY State

### KEY FINDINGS:

- ~**Enrolment Pressure** is driven by **Demographic Ratios (Child %)**, not just total volume. High-pressure zones consistently show a **Child Ratio > 65%**.
- ~Identified specific "High-Growth" districts where **Age 0-5 enrolment** is spiking, identifying them as priority zones for **newborn-specialized kits**.
